PERSONAL PROJECTS

Active Smart Glasses For Blind people
(10/2022 - 12/2022)

- The sole objective of this project is to help a blind person not to be met with an accident.
- Got first prize Certificate on prototype design hackathon 2022

Made professional pcb design using easyEDA tool
(07/2022 - 08/2022)

- This circuit will help the user to build their own automation for real-time applications like a fan, motors, television, etc.
- This EDA tool helped to build my circuit into professional pcd design and the output.
- You can check my work on my Github repository <https://github.com/veerankitarun/Made-very-own-professional-PCB-design>
